<sup>1</sup> The courses must either enhance skills acquired through the program or must add to the body of knowledge within the program. They must also relate to the broader environmental field. For instance, a four-course sequence in Geographical Information Systems (GIS) from an approved institution would enhance program skills. A four-course sequence in Biology, Chemistry, Geology, etc. would be considered to add to the program's body of knowledge. Note: The concentration can be completed at Bakersfield College or taken as part of another approved community college program. Courses in the concentration cannot be double counted as courses in the major.

<sup>2</sup> Some GE requirements are included in the major

**Note:** One (1) semester unit of credit normally represents 50 minutes of in-class work and 2-3 hours of outside study.
